

1-
(= 1+)

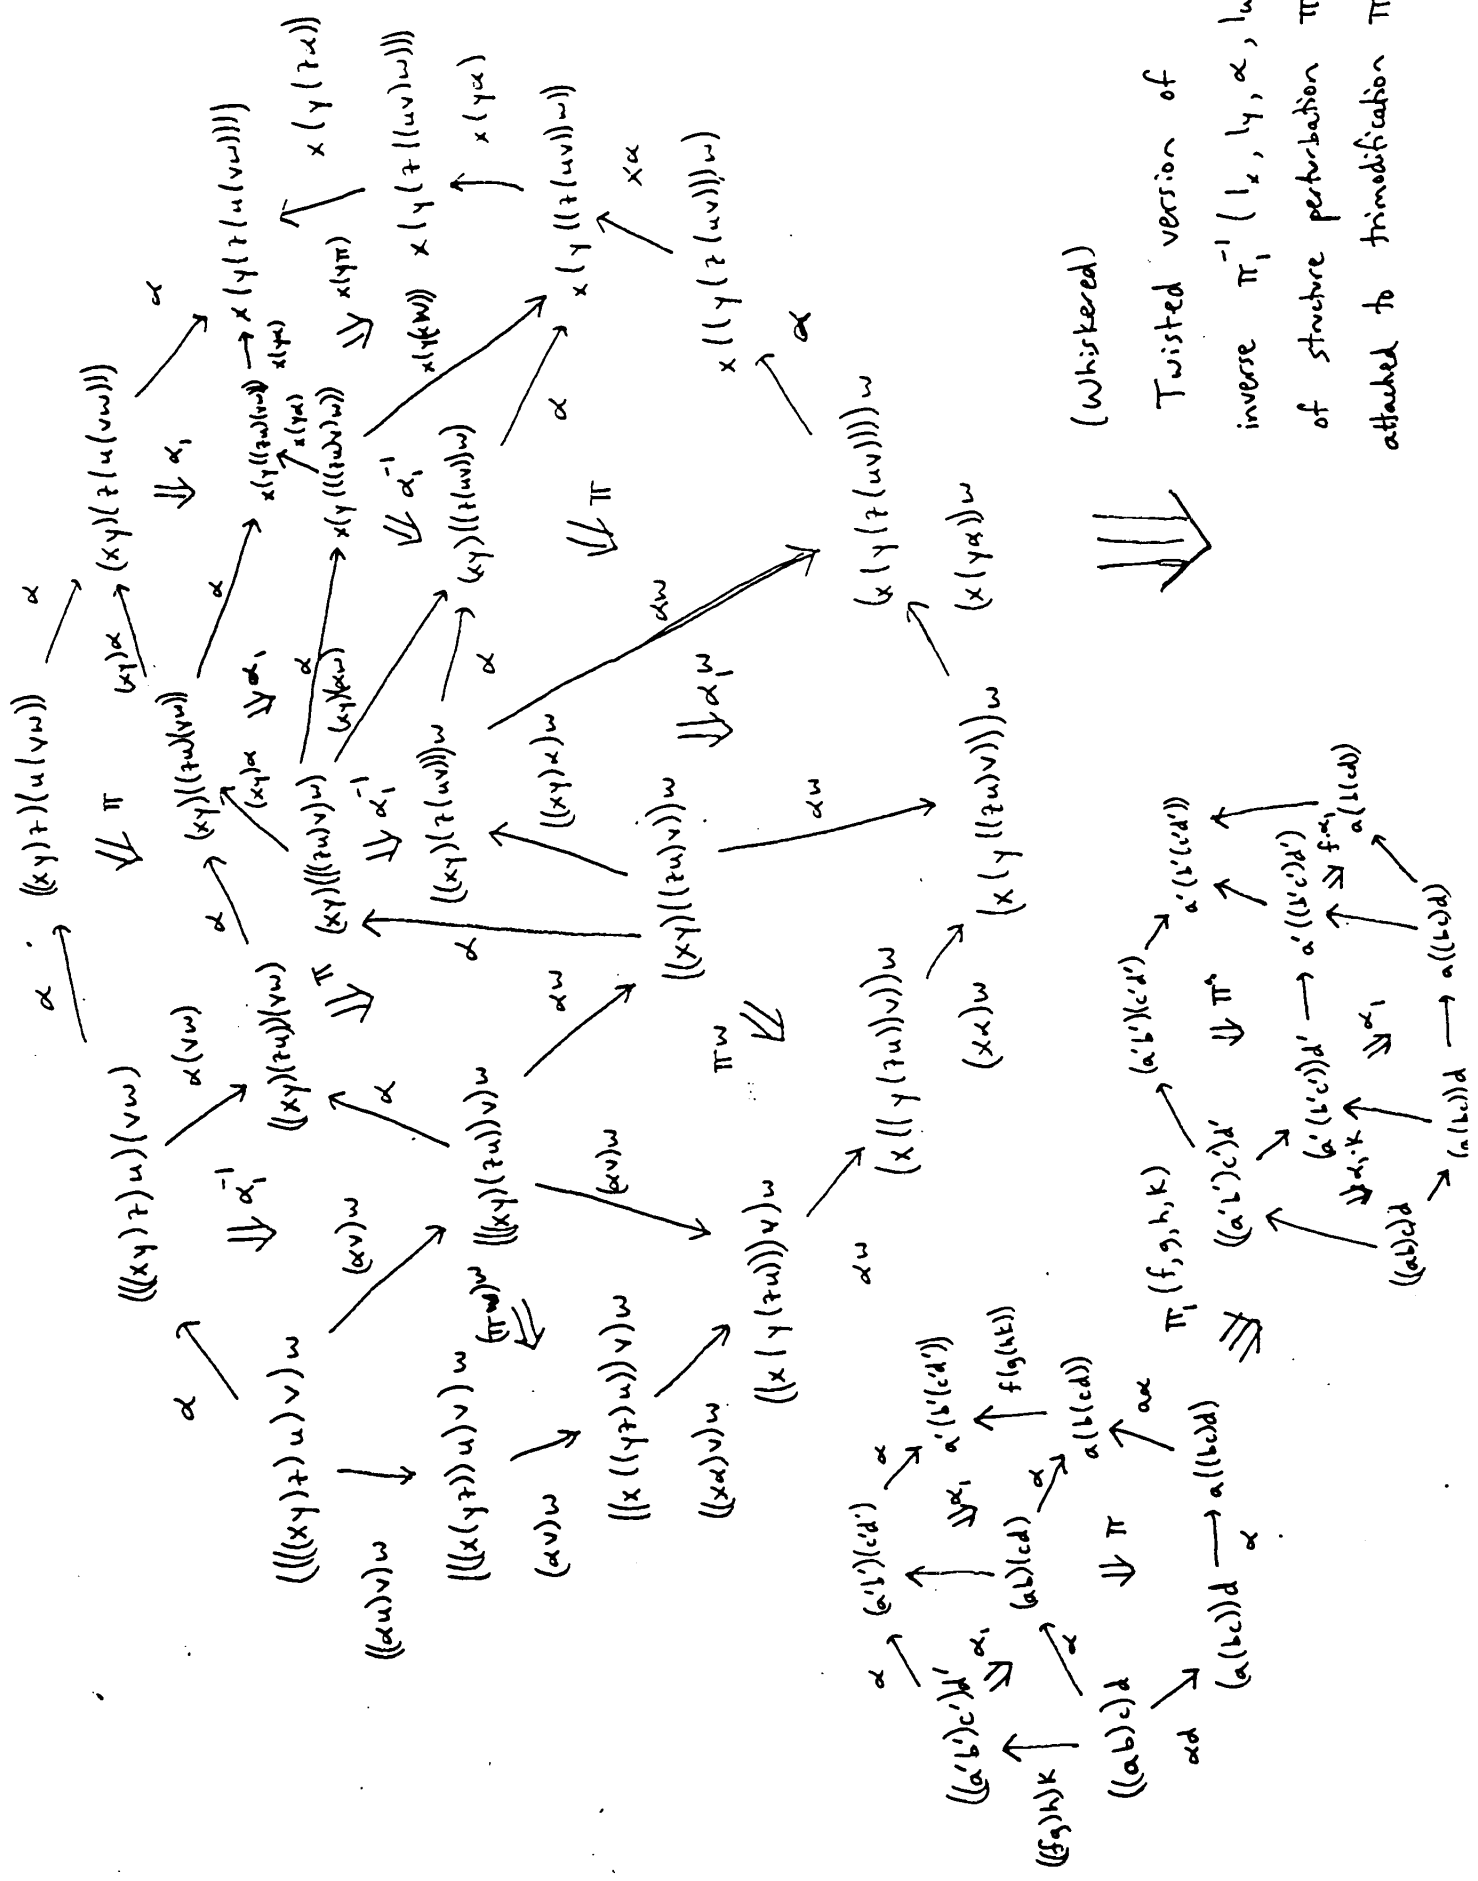

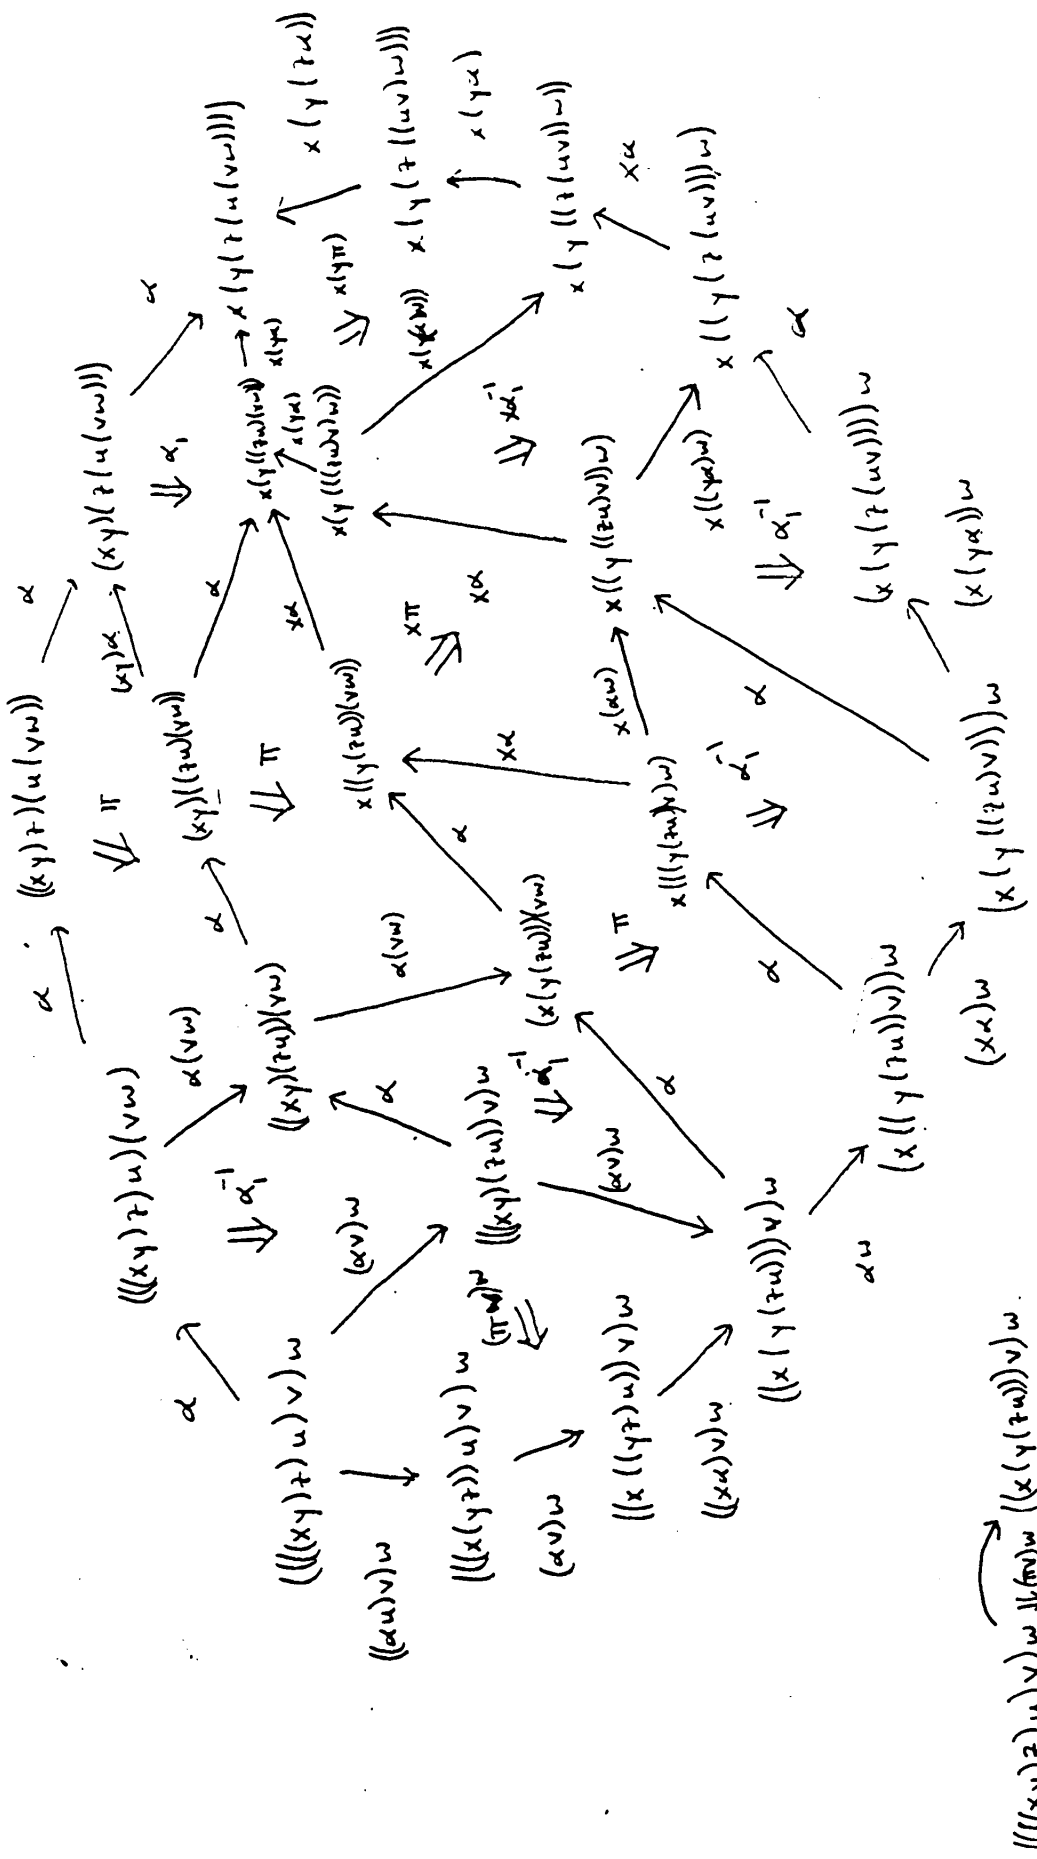

(Whiskered) 4-cocyclic perturbation
 $K_5(x, y, z, u, v, w)$

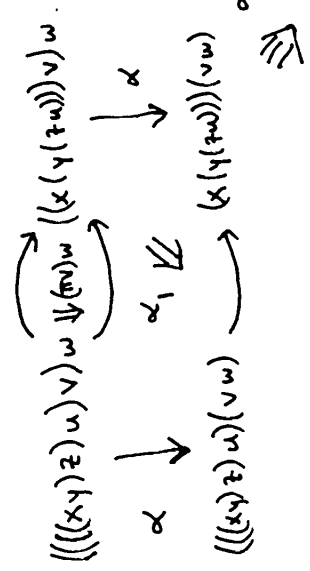

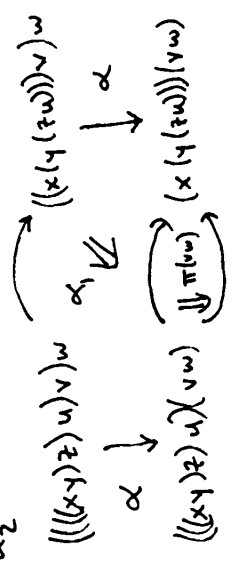

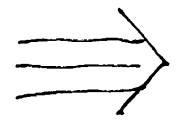

(whiskered) Twisted version
of product cell
(pentagon \otimes interval)
derived from structure
perturbation α_2 of
trifibration α

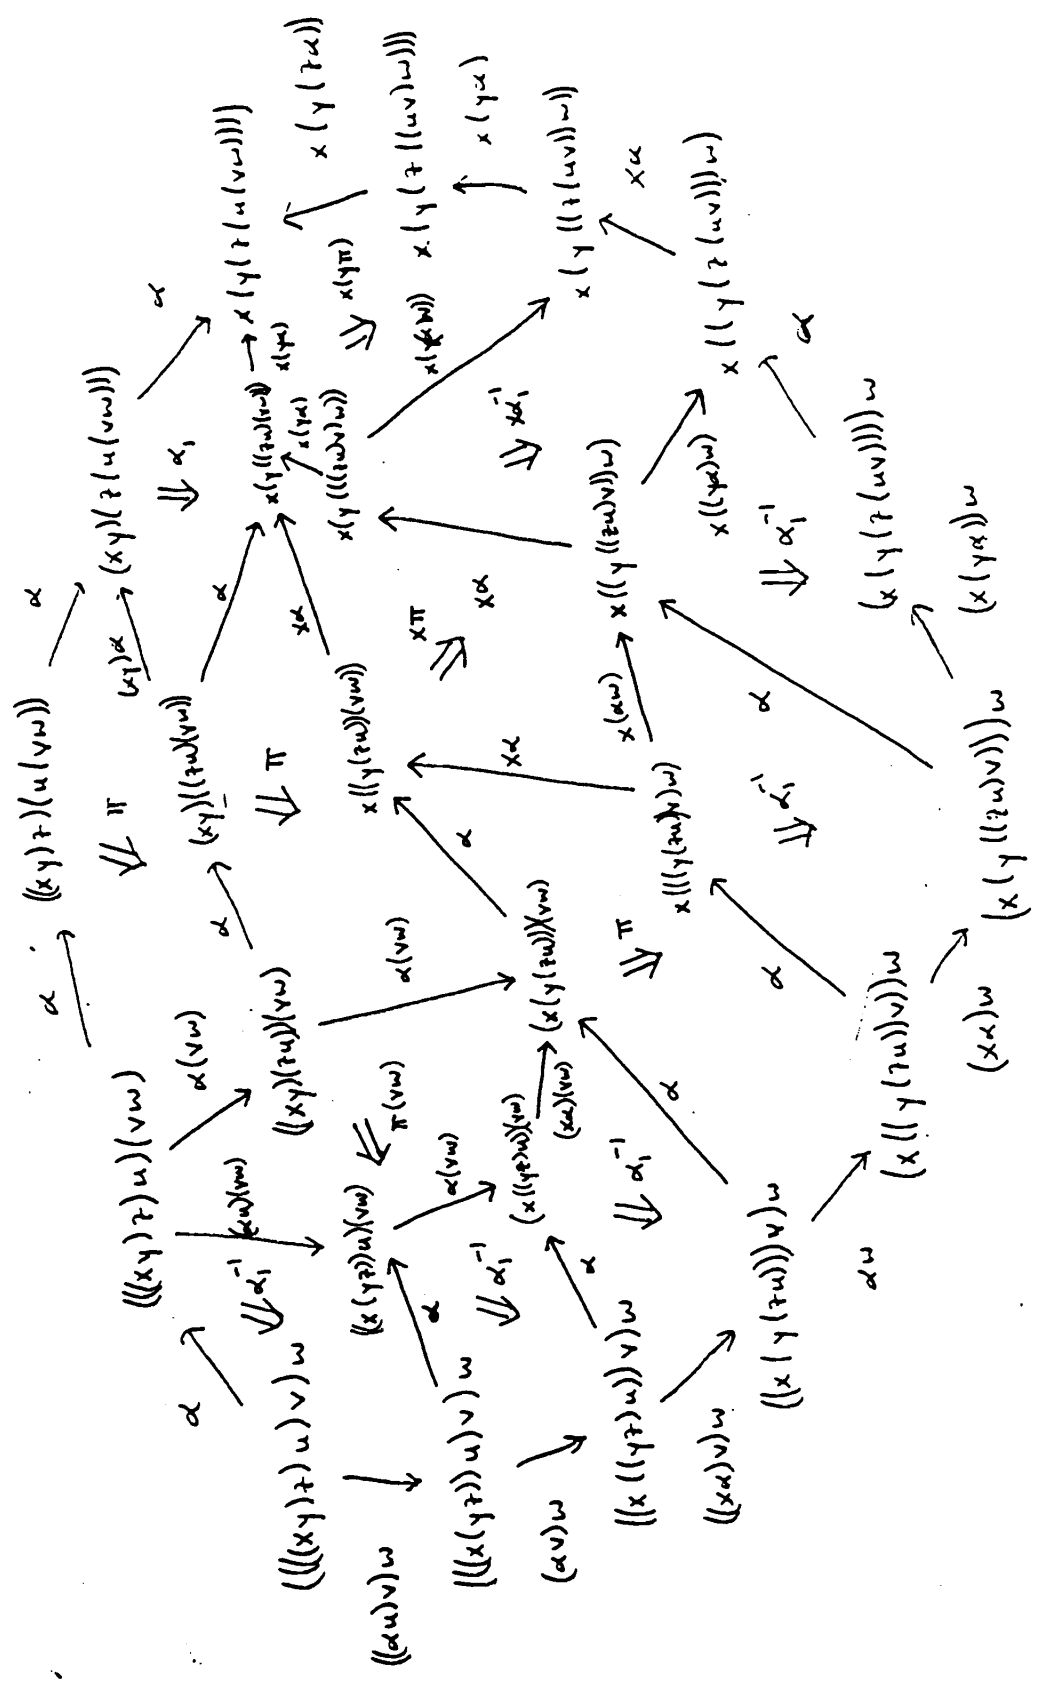

(Whiskered)
 Twisted version of
 pentagon @ interval
 derived from structure α_2
 of transformation α

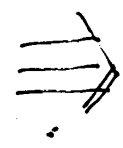

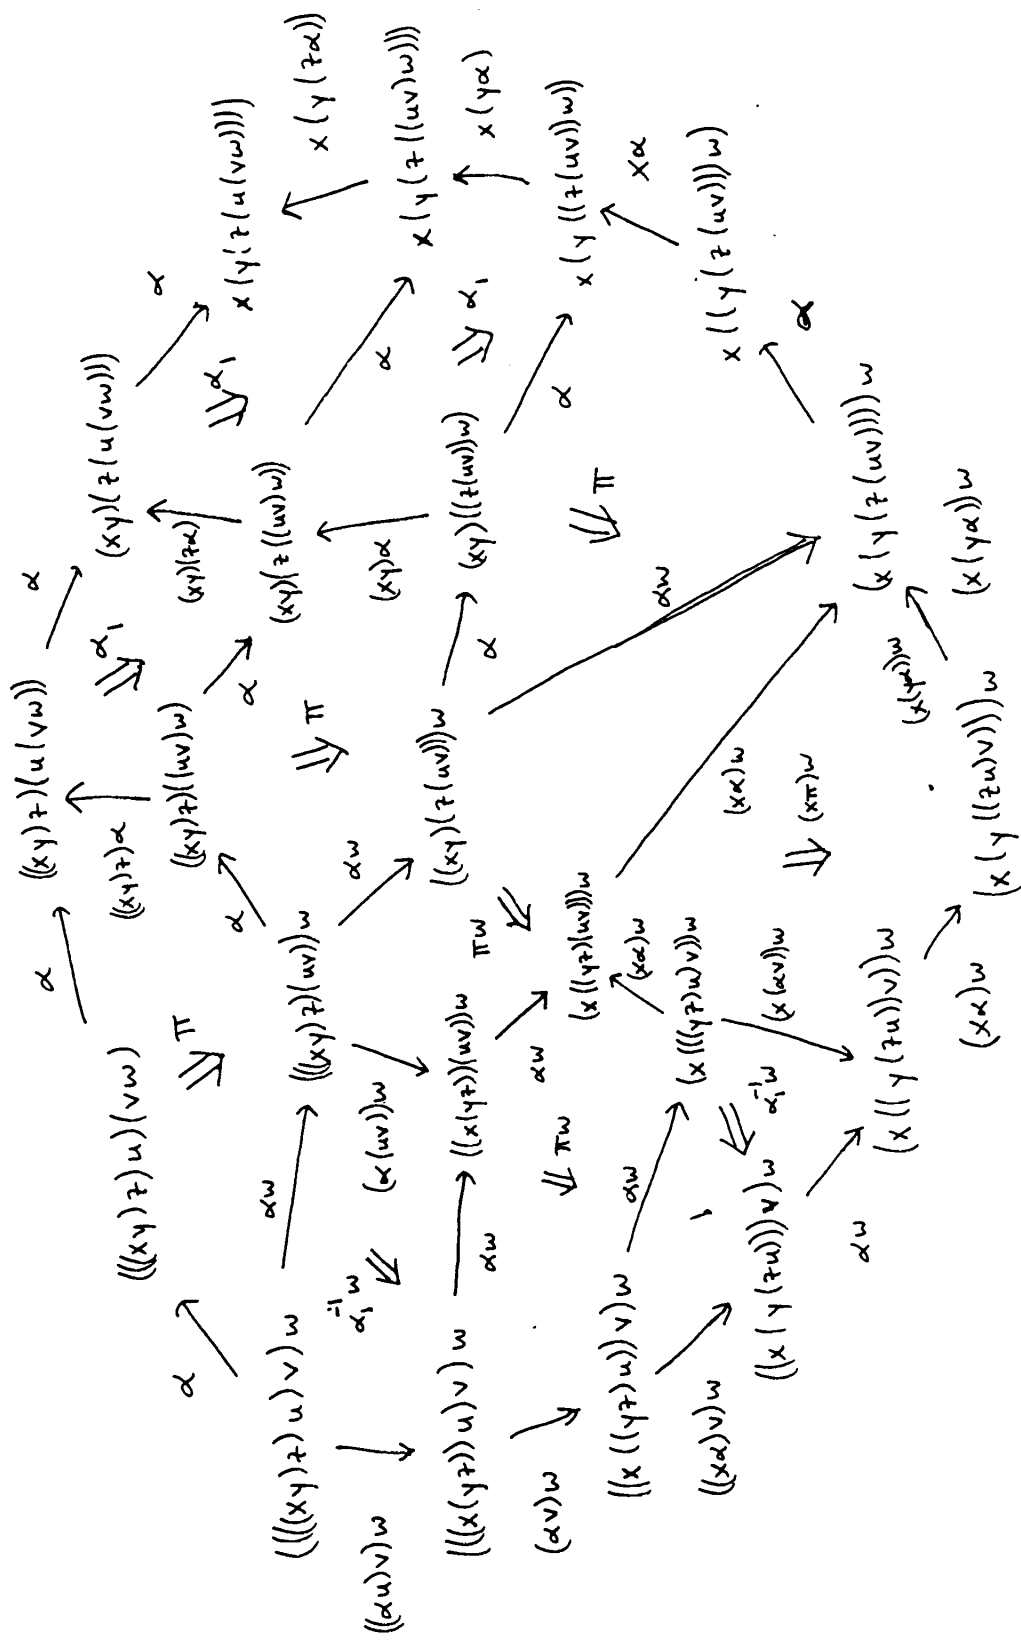

(Whiskered)

4-cocyclic perturbation

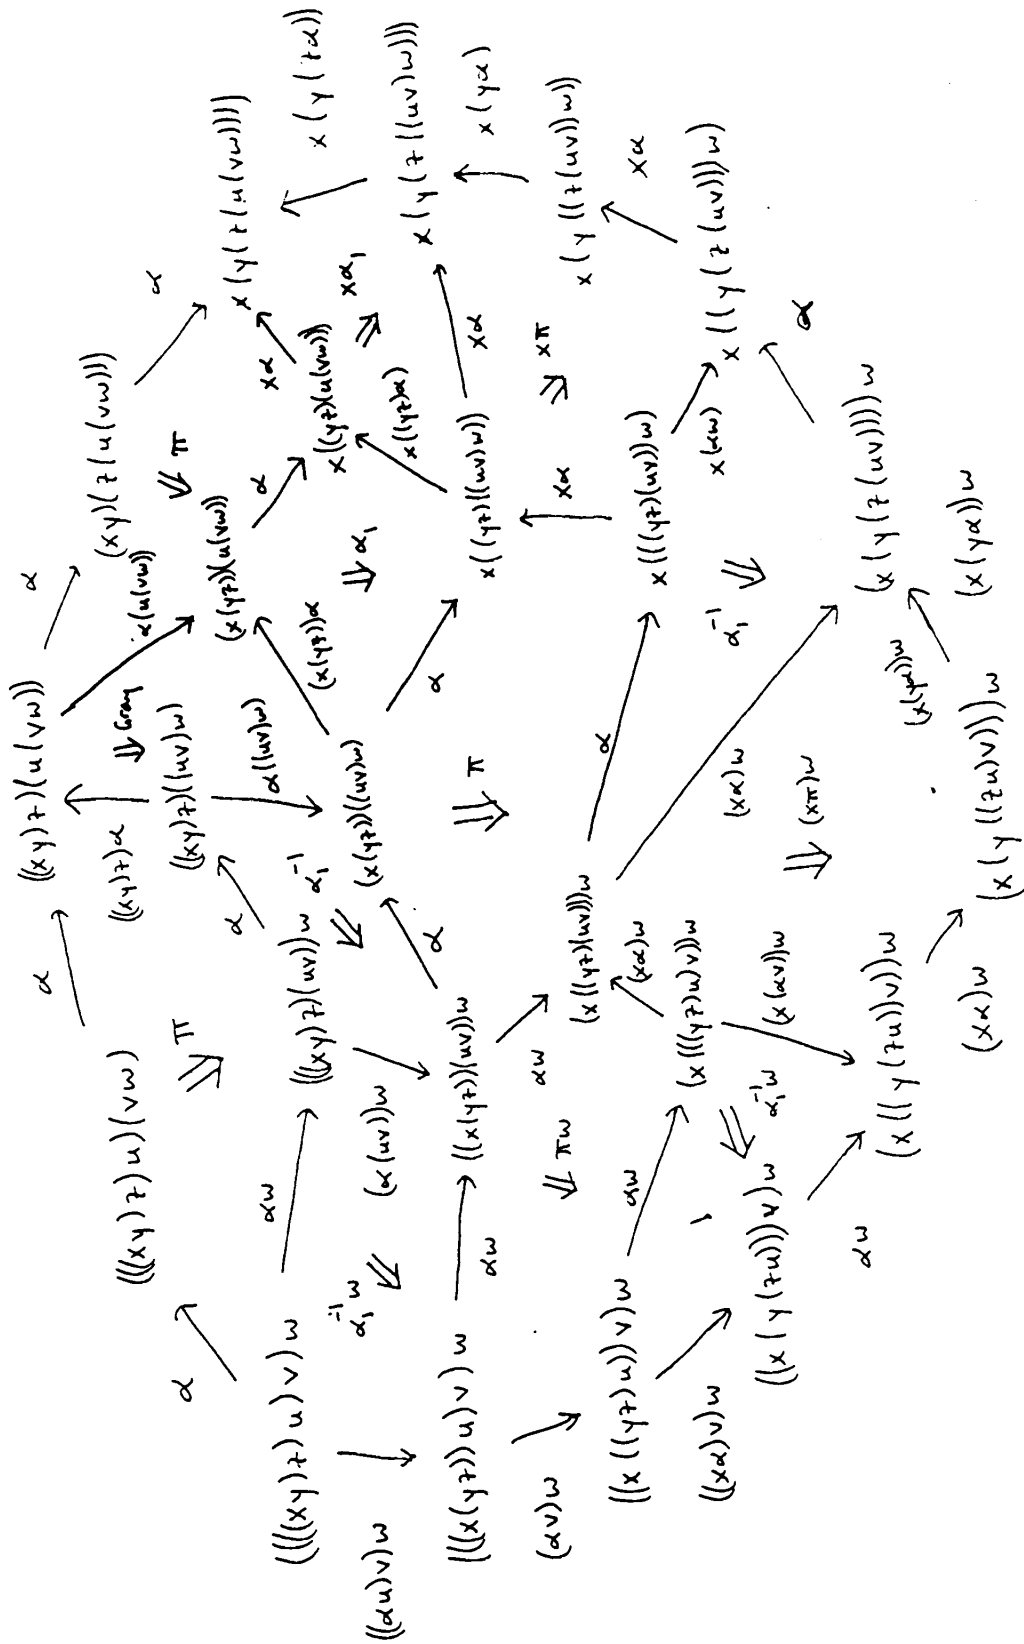

$K_5(x, y, z, u, v, w)$

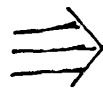

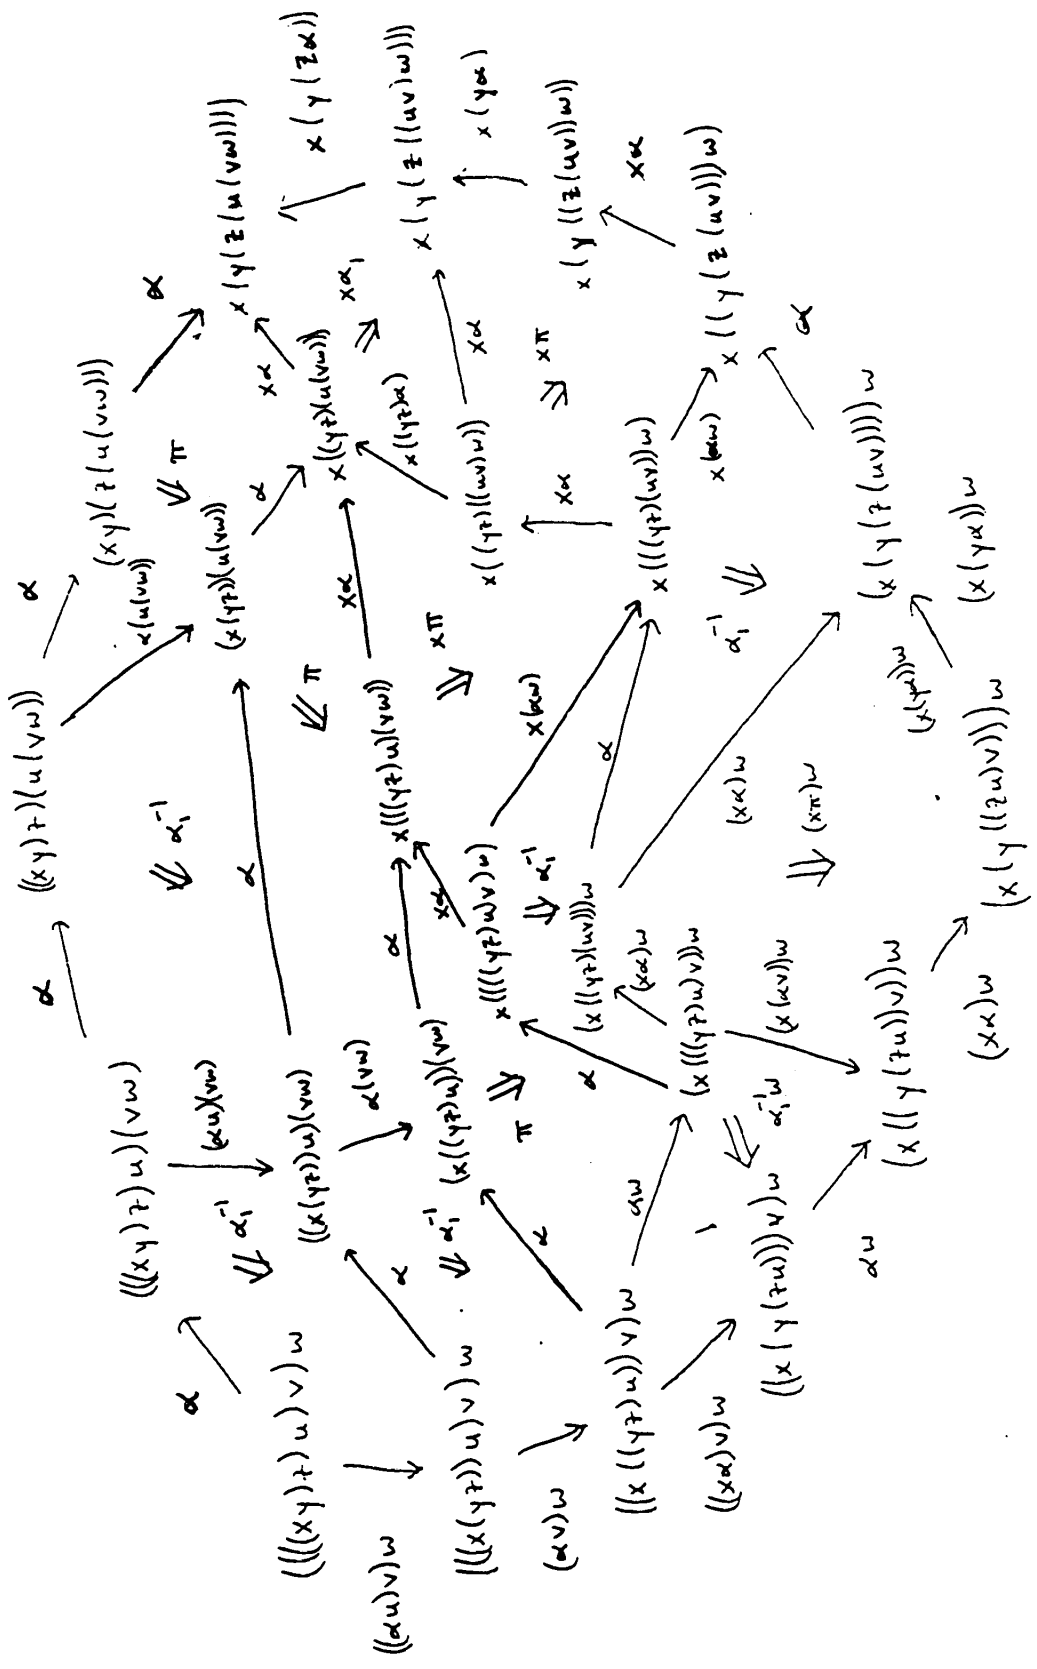

(Whiskered)
 4-cocyclic perturbation
 $K_5(x, y, z, uv, w)$

(Whiskered)
 Instance $\pi_1(\alpha, l_u, l_v, l_w)$
 of structure perturbation π_1
 attached to trifibration π

(whiskered)

Twisted version of pentagon @ interval derived from structure perturbation α_2 of tritransformation α

9+
(= 7-)
